LOTUS NETWORKS CERTIFIED AS “TRUSTED BRAND 2008”

Ho Chi Minh City, 11 October 2008, Lotus Network Technologies Corp – a system integration solution provider, is pleased to announce that we have been certified as “Trusted Brand” for the year 2008.

“Trusted Brand” is built to certify Vietnam enterprises under a strict process of survey, evaluation, selection as criteria of Vietnam Enterprises cooperated with strategic partners to do survey, selection and certification under consultancy of quality control from NQA (National Quality Assurance – UK).

The symbol of “Trusted Brand 2008” has been granted to 134 Vietnam enterprises this time. Especially, Lotus Networks is one of a few network system integration solution providers who are certified in this ceremony. In the situation that there are many providers and stricter requirements from the market, the certificate “Trusted Brand” will enable Lotus Networks to get our customers’ belief in our product and service quality.

This is the second year Lotus Networks is certified “Trusted Brand”. By means of that, Lotus Networks confirms our maintenance of good product and service quality, and then to satisfy our customers. All of our business fields are certified upon quality: Providing network system integration solutions including enterprise solutions, telecommunication solutions; Consulting, designing and implementing projects; Service of maintenance and warranty.

Ms. Truong Thi Thuy Huong – General Manager of Lotus Networks Vietnam said: “By means of getting this certificate, we confirm once again our position in Vietnam information technology market. This expresses Lotus Networks’ achievement in providing good quality services such as providing network system integration solutions including enterprise solutions, telecommunication solutions; consulting, designing and implementing projects; maintenance and warranty service. We have acquired trust from customers and partners. This success is a motivation for us to develop and expand services for customers, also a valued marketing tool for us. With advantages in human, finance, technology and support from partners, we strongly believe that Lotus Networks will serve high-quality services in information technology for customers in Vietnam market.”

Information about Lotus Networks and our products, services can be found on website www.VietnamEnterprises.com.vn, subpage Information Technology.

www.VietnamEnterprises.com.vn

This page executed by Vinexad (Vietnam Ministry of Trade and Industry) selects enterprises that provide good quality products and services to help customers, partners find out trusted suppliers. Through this information channel, enterprises' brand names are launched widely to customers with trust of quality and services. VietnamEnterprises cooperated with strategic partners to survey, select and certify under consultancy of quality control from NQA (National Quality Assurance – UK).

NQA (National Quality Assurance – UK).

NQA QA (National Quality Assurance Limited) established in 1988 in the UK is one of the world's leading certification bodies. NQA has head office in the UK and offices in 52 other countries. NQA is currently the only UK certification body to be accredited for the provision of TL 9000 certification. In addition, NQA provides certification under the Radio Quality Assurance and Telecommunications Industry Association and the Radio Quality Council.

NQA is accredited widely by the accreditation bodies RAB-ANSI (USA), UKAS (the UK)... NQA has granted 60,000 certificates of ISO 9001, ISO 22000, HACCP, GMP, ISO 14001, EurepGAP... for enterprises in more than 52 countries

NQA's philosophy is to develop a practical and professional relationship with its clients, to be a close friend beside clients at all stages of the certification process to ensure that clients maximize the benefits of operating an effective management system. NQA has built its reputation on providing a valued, non-bureaucratic service to all sectors of business.
